About Me

I am a third-year student in the Marine Science Study Program at Padjadjaran University. I have a strong interest in Hydro-oceanography, particularly in marine instruments and marine survey. I have experience in conducting direct marine sampling activities in the field. Currently, I am seeking a research internship opportunity to broaden my knowledge, enhance my academic and field skills, and contribute as a team member in research projects. I am able to work both independently and in a team, with high motivation, strong communication skills, and a collaborative mindset.

Education

2020 - 2023 | SMA PGII 1 Bandung

2023 - Present | Padjadjaran University Major in Marine Science

Organizational Experience

Himpunan Mahasiswa Ilmu Kelautan (HIMAIIKA)

Staff of the Department of Academic and Professional Development

Feb 2024 - Des 2025

Kelompok Studi Instrumentasi dan Survei Kelautan (KOMITMEN) HIMAIIKA UNPAD
